**A word from your President
By Connor Fox**

Hi everyone! It is with great sadness that I write my final newsletter as president of Rock Green Realtors® Association. I have greatly enjoyed my time as president these past 2 years but I am looking forward to lending my time to some other organizations in our community. That doesn't mean I still won't be involved with Rock-Green, I feel like I will always be involved in one way or another!

I am excited to pass the reigns to Jeff Zuelke! He has been board president in the past and I am excited for him to lead our organization forward! We also have a great selection of association members who have agreed to be on the board of directors.

I will keep this month's letter a little short and focus on several association related items. The Rock-Green Golf Outing was Thursday, August 25th and was well attended despite the 100 degree heat!

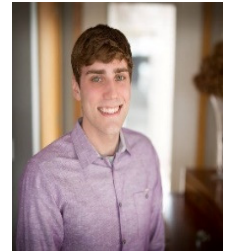

Mark your calendars for October 25th for the annual RPAC after 5 event at The Barn on Prairie. Get your money handy for raffle tickets, a Wisconsin Badger bench is up for grabs. Currently can be viewed at the Association office. RPAC committee members are currently selling tickets and the winner will be drawn the night of the event. Tickets are being sold until October 25th but don't wait or you might miss out!

Mark your calendars one more time because I am proud to announce that the Rock-Green Realtors® Association is bringing back the annual holiday party. Now going by the name "Light The Night," this fun filled evening will take place on December 15th at the Janesville County Club. Stay tuned for more details coming soon!

As always, please do not hesitate to reach out if you'd like to get more involved with the association.

Thanks again everyone
All the best,

Connor

MLS INFORMATION:

Delayed Listings – Dos & Don'ts		
Can I?	Answer	Explanation
Show the property?	✗	Delayed listings may not be shown to potential buyers, or previewed for potential buyers, by anyone, including the listing firm.
Wait to enter on the MLS?	✗	All listings (including Delayed) must be entered within 1 business day of public marketing. If not marketing, enter within 4 calendar days of the list/effective date.
Advertise the property (for sale sign, social media, etc.)?	✓	Advertising may begin as early as the list/effective date (first day of the term of the contract).
Wait to add photos?	✓	Photos are not required while Delayed.
Wait to enter required fields?	✓	Only the show date, a valid address, and bona fide list price are required. All other fields may be entered as 0 or None while Delayed, but must be completed prior to going Active.
Send the listing to buyers?	✓	Agents can manually send Delayed listings to buyers, but should explain that the property is not yet available to show and listing data may not yet be finalized.
Accept an offer?	✓	As long as it is sight-unseen. A buyer may not be given access to the property until the offer has been fully accepted by all parties.
Change the show date?	✓	Please notify any agents who have set up a showing based on the original show date so they can reschedule based on the new date. Showings may be delayed for up to 45 days.

***New Construction - Stages of Completion

The Type feature pick list contains three distinct stages for properties that are under construction or newly built:

- Building Plan with Lot = Proposed home is not yet started. Building plans are allowed on the MLS only if they include land with the sale, and only one building plan per lot may be entered. If there are additional floorplan or finish options, these can be noted in the remarks.
- Under Construction = Hole has been dug & construction is underway. The estimated date of completion (or stage of completion at the time of listing) is required in the first line of the public remarks.
- New/Never Occupied = New home is completed & move-in ready. A photo of the front exterior of the home is required at this stage.

It is important to update the feature as a home moves from plan, through construction, to finish. If you add upgrades or finish more square footage than the original listing states, please adjust the price and applicable fields/features in the MLS to reflect these changes. We often see the sale price several thousand dollars more than the list price due to additions/upgrades, which makes it difficult to use these sales for appraisals and CMAs.

***Front Exterior Photo Reminder

When entering a new Single Family, Condo, or Multi Family listing, please remember to include a front exterior/street view of the home, even for waterfront properties. It does not need to be the primary photo, and can appear anywhere in the order. Having a view from the street is useful not only to agents when showing the property, but also to appraisers.

***Assessor Data / Public Records Resource

Did you know the assessor data for many municipalities is available online, for free? This provides an easy way to look up things like the number of bedrooms, bathrooms, finished square footage, year built, and more for a given property.

To locate this information, click *Tax* in the main Paragon menu and choose *Public Records Websites* from the dropdown. Select your county on the map, choose the appropriate municipality, and then search by address or parcel #. If you don't see your municipality listed, you can check AssessorData.org (for free) or purchase the complete property record for a small fee on AssessorData.com.

***Save Time Adding Listings with Tax Auto fill

If you are not currently using Tax Autofill when adding a listing, you may want to check it out. It allows you to automatically pull information such as address, parcel number, municipality, owner, school district, acres, assessments, and taxes from the tax record into the listing input screen in Paragon, saving you keystrokes. To do this, click the Tax Autofill button at the top of the Add Listing screen. On the Tax Search page that displays, select the county along with the parcel number, address, or owner name, and then click Search. Check the box next to the appropriate tax record, and then click the Autofill button in the toolbar above the results to load the information into the listing input screen. To adjust any of the information that auto-filled, simply overwrite it.

***Do Not Enter Without a Confirmed Appointment

The security of clients' properties is a top priority for all of us. If an agent accesses a keybox without a confirmed appointment, even if it is a vacant home, the agent and their broker may be assessed a fine of \$500 each. These fines double, and Supra eKEY access may be suspended for a second offense. These penalties are guidelines, and may be more severe depending on the circumstances. A seller can also bring trespass charges against any agent without a confirmed appointment. Before accessing a property, please double check the address & ensure you have permission.

Rock County Housing Statistics

Madison, WI—Wisconsin Inventory Remains Tight, Pushing Sales Down and Prices Up. Following recent patterns, weak inventories limited sales of existing homes and drove prices up significantly. July 2023 closings slid 20.8% compared to July 2022, and the median price rose 7.5% to \$300,000. This was the second straight month where the statewide median price was at or above the \$300,000 mark.

Interestingly, months of inventory saw the largest improvement in rural areas over the past 12 months, increasing from 4.3 months in July 2022 to 4.8 months in July 2023. In contrast, large metropolitan counties saw months of supply changed at 2.9 months, and inventory improved slightly in medium-sized towns; for example, metropolitan counties improved from 3.2 months to 3.4 months.

Joe Horning, 2023 Chair of the WRA Board of Directors, **CHALLENGES ESPECIALLY HIGH IN URBAN AREAS:** “A balanced market is six months of supply, and so it was good to see some movement toward that benchmark in our rural counties. However, we still have very low inventory levels in our urban areas, which is making it difficult for younger households to effectively compete for homes.”

Michael Theo, WRA President and CEO tells us, **MORTGAGE RATES INCHING UPWARD:** “Most buyers rely on financing in their purchase of a home, and this is especially true for first-time buyers. Unfortunately, rates have been moving in the wrong direction, with average 30-year rates at 6.84% in July. This is near the peak levels of last October when they averaged 6.9%. Hopefully we see improvement in the next few months.”

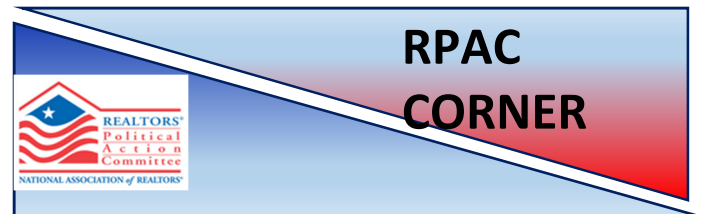

Dave Clark, Marquette University Economist and WRA Consultant, **THE FED’S NEXT MOVE IS UNCERTAIN:** “Headline inflation ticked up slightly to an annual rate of 3.2% in July, although the less volatile core inflation measure that excluded food and energy fell to 4.7% - its lowest level since October 2021. The Fed is still concerned that inflation remains well above its 2% target, and the Fed raised short-term rates in July to the highest level in 22 years. While there is disagreement among Fed officials as to whether more rate increases will be necessary, what is clear is that we are not likely to see rate cuts in the foreseeable future.”

Rock County Housing Statistics—The median price for July 2023 is \$246,000 and for the month of July in 2022 it was \$235,000 that was an increase of +4.7% and the

Sales for July 2023 is 195 and July of 2022 was 240 that was a decrease of -18.8%. In July of 2023 there was 3.1 months of **inventory** and in July of 2022 there was 3.1 that was a 0.0% change. Average **days on the market** in July of 2023 was 63 and July of 2022 was 59 that was a +6.8% change.

Statewide Housing Statistics—The median price through July 2023 is \$285,000 and through July of 2022 it was \$263,000 that was an increase of +8.4%. The sales through July of 2023 is 34,698 and through July of 2022 was 45,437 that was a -23.6% change.

All county figures on sales volume and median prices are compiled by WRA and are not seasonally adjusted. Median prices are only computed if the county recorded at least 10 home sales in the quarter. Beginning in 2018, all historical sales volume and median price data from 2015 forward at the county level have been re-benchmarked using the Relitix system that accesses MLS data directly. Data prior to January 2015 is derived from the Techmark system that also accessed MLS data directly.

Beware of Listing Scam

The MLS has received several reports of a scam
in which an agent is contacted to list a property
by someone posing as the property owner. The
scammer will typically handle all
communication remotely and request the
property be listed for less than its value in
order to generate immediate interest. The WRA
has published a helpful article explaining this
scam and how to avoid it. You can read more
about on Paragon
